

Course : Understanding Enterprise Architecture according to the TOGAF standard

Practical course - 3d - 21h00 - Ref. EAF

Price : 2380 € E.T.

★★★★☆ 4,3 / 5

The TOGAF® architecture framework (The Open Group Architecture Framework) has become a de facto standard for enterprise architecture approaches over the last few years. Suitable for any organization and independent of any industry, its structure focuses on what most architects want: guidance on how to deliver the best enterprise architecture that supports their stakeholders and their organization. This training course will teach you the different modules of TOGAF® Standard 10th Edition, as well as the associated best practices.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Understand the fundamentals of enterprise architecture and the TOGAF® Standard approach, 10th Edition
- ✓ A common language with TOGAF® practitioners
- ✓ Understanding the architecture development method (ADM) and its application
- ✓ Understand how to set up appropriate architecture and governance capabilities

Intended audience

Business activity managers, MOA team members, enterprise architecture program managers and members, IS architects and planners.

Prerequisites

None.

Certification

On completion of this course, participants will be able to take the TOGAF® Enterprise Architecture Part 1 exam.

PARTICIPANTS

Business activity managers, MOA team members, enterprise architecture program managers and members, IS architects and planners.

PREREQUISITES

None.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.

Participants also complete a placement test before and after the course to measure the skills they've developed.

Practical details

Storyboarding workshops

Discussions based on participants' organizational cases. Check understanding as you progress through the repository using multiple-choice questions.

Teaching methods

Active pedagogy encouraging personal involvement and exchanges between participants.
