

Course : EzPublish, improvement

Practical course - 3d - 21h00 - Ref. EZR
Price : 1820 € E.T.

You'll learn how to create extensions for your web applications. You'll be able to create webdesign via eZ Publish to embellish your sites, set up community forums to add animation and amplify international potential with multilingualism.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Manage extensions
- ✓ Creating website designs
- ✓ Customize content
- ✓ Add multilingual extension
- ✓ Setting up a forum

Intended audience

This module is aimed at developers, webmasters and website managers.

Prerequisites

Knowledge of HTML and notions of PHP or knowledge equivalent to the course "Initiation EzPublish".

Course schedule

1 What is an extension?

- Available extensions.
- Create and activate an extension.
- Extension portability.
- How to package extensions.
- Extension management.

Hands-on work

Using an extension and creating a custom extension.

PARTICIPANTS

This module is aimed at developers, webmasters and website managers.

PREREQUISITES

Knowledge of HTML and notions of PHP or knowledge equivalent to the course "Initiation EzPublish".

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.

Participants also complete a placement test before and after the course to measure the skills they've developed.

2 How to create an attractive design with eZ Publish

- eZ Publish templates.
- Create a new design.
- eZ Webin.

Hands-on work

New web design.
