Course : HERMES 2022 foundation, certification

Practical course - 2d - 14h00 - Ref. HEP
Price : 1760 € E.T.

HERMES 2022 is a project management approach that incorporates the latest developments in project management, and stands out for its approach to integrating agility into a well-structured context. The design is based on results, activities and roles, which form a coherent module to deal with a particular aspect of the project, such as purchasing, product or service development, or project management. Alternating theory and exercises, this training course prepares participants for the HERMES 2022 foundation certification.

Teaching objectives

At the end of the training, the participant will be able to:

- Familiarity with HERMES content and basic tools.
- Know the phase model and decision processes.
- Understand the HERMES method.
- Be able to adapt the method to the requirements of your projects.
- Gain an overview of project processes, tasks and results using the service/product scenario.

Intended audience
Directeurs Informatiques, Managers, consultants, Responsables PMO, chefs de Projet et tout professionnel impliqué dans la gestion de projet.

Prerequisites
Project experience, ideally IT-related.

Certification
Take the HERMES 2022 certification in French, online via the TÜV Süd platform and without any support admitted. The exam consists of a 40-question MCQ. The exam lasts a maximum of 1 hour, and certification is obtained if the candidate obtains at least 24 correct answers (60%).

Course schedule

PARTICIPANTS
Directeurs Informatiques, Managers, consultants, Responsables PMO, chefs de Projet et tout professionnel impliqué dans la gestion de projet.

PREREQUISITES
Project experience, ideally IT-related.

TRAINER QUALIFICATIONS
The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS
The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.
Participants also complete a placement test before and after the course to measure the skills they've developed.

1 History of the method

- Putting the evolution of the methodology since 1975 into perspective.
- New with HERMES 2022.
- Publications and tools available.

2 Project life cycle

- Presentation of the HERMES time frame.
- The phases.
- Milestones.

3 Agility integration (Scrum)

- Analysis of the "Implementation" phase.
