

Course : ISO 27001:2013 Lead Auditor, Certification

Practical course - 2d - 14h00 - Ref. LAU

Price : 1590 € E.T.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Understand how an Information Security Management System compliant with ISO 27001 works.
- ✓ Understand the role of an auditor: Plan, direct, and track a management system audit
- ✓ Know the structure of the ISO 27001 standard and how to reference it
- ✓ Acquire the expertise needed to manage a team of ISMS auditors

Certification

To take this exam remotely, the candidate must procure all the required standards in hard copy, on their own. The certification exam is taken in French at the end of the session. This exam certifies that you have the knowledge and skills needed to audit an ISMS in accordance with the ISO/IEC 27001:2013 standard. This exam is conducted in partnership with the COFRAC-accredited certifying body LSTI.

Course schedule

1 Exercises - Hands-on work

- During this course, an interactive instructional approach will be offered to you with role-playing exercises.
- The ISO 27001 A/LA exams include questions about ISO 27005 ISS risks and ISO 27002 security practices.

Exercise

Multiple-choice knowledge tests and mock exam practice will be offered.

2 Group corrections

- The results of the exercises and hands-on work will be given to you in the form of group corrections.
- During this feedback, any mistakes will be analyzed and discussed.

PARTICIPANTS

PREREQUISITES

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.

Participants also complete a placement test before and after the course to measure the skills they've developed.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

3 Final review.

- To complete preparation, a final review is provided.
- During this review, tips, tricks, and pitfalls to avoid will be given out.

4 Preparing for and taking the test

- Required standards: ISO 27000, ISO 27001, ISO 27002, ISO 27005, ISO 19011, ISO 17021, ISO 27006.
- The exam will be previewed online on the first day of the training: Content and rules to be followed.
- The technical prerequisites for the online exam (webcam enabled, Internet connection).
- Administrator privileges to install anti-cheating software, etc.
- This exam is done on the online testing platform TESTWE (testwe.eu).
- If the exam is taken on Orsys premises, Orsys handles the preparation of the candidate's workstation.
- When taking the exam on Orsys property, the standards described in the training are loaned in hard copy.
- To take this exam remotely, the candidate must procure all those standards in hard copy, on their own.

Exam

The exam is a multiple-choice/fill-in-the-blanks questionnaire It lasts two and a half hours. It is worth 100 points. If at least 65% of the answers are correct, the exam is passed.

TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training.

ACCESSIBILITY FOR PEOPLE WITH DISABILITIES
