Course : Create and Manage Automated Processes Using Power Automate (Microsoft PL-7002)

Official Course PL-7002

Practical course - 1d - 7h00 - Ref. MP7
Price : 990 € E.T.

NEW

In this course, you'll learn how to create and manage automated workflows with Microsoft Power Automate. You'll discover how to automate business processes, connect different applications, and streamline repetitive tasks.

Teaching objectives

At the end of the training, the participant will be able to:

- Understanding How Microsoft Power Automate Works
- Create automated workflows to simplify repetitive tasks
- Connect different applications and services using connectors
- Using Conditions, Triggers, and Actions in a Flow
- Test, Manage, and Share Power Automate Flows

Intended audience

Business users, beginner developers, and anyone who wants to automate processes with Microsoft Power Automate.

Prerequisites

Basic knowledge of Microsoft 365. No development experience is required. Good written English skills.

Course schedule

PARTICIPANTS

Business users, beginner developers, and anyone who wants to automate processes with Microsoft Power Automate.

PREREQUISITES

Basic knowledge of Microsoft 365. No development experience is required. Good written English skills.

TRAINER QUALIFICATIONS

The experts who lead the training courses are specialists in the subjects covered. They are approved by the publisher and certified for the course. They have also been validated by our teaching teams in terms of both professional knowledge and teaching skills for each course they teach. They have at least three to ten years of experience in their field and hold or have held positions of responsibility in companies.

ASSESSMENT TERMS

Assessment of targeted skills prior to training.
Assessment by the participant, at the end of the training course, of the skills acquired during the training course.
Validation by the trainer of the participant's learning outcomes, specifying the tools used: multiple-choice questions, role-playing exercises, etc.
At the end of each training course, ITTCERT provides participants with a course evaluation questionnaire, which is then analysed by our teaching teams. Participants also complete an official evaluation of the publisher.
An attendance sheet for each half-day of attendance is provided at the end of the training course, along with a certificate of completion if the participant has attended the entire session.

1 Getting Started with Power Automate

- Introduction to Power Automate.
- Create a cloud feed.
- Troubleshoot issues with a workflow.
- Convert a flow to an Agent Flow.

Hands-on work

Create recurring flows
