

# Course : Introduction to Microsoft Power Platform (Microsoft PL-900)

Official PL-900 course, exam preparation

*Practical course - 2d - 14h00 - Ref. PP2*

*Price : 1590 € E.T.*

★★★★☆ 4,5 / 5

NEW

With this training course, you'll gain a concrete understanding of the benefits of Microsoft Power Platform and its key advantages for your business. You'll learn step-by-step how to connect your data with Dataverse, easily create simple (Canvas) and more structured (model-driven) applications, automate repetitive tasks with Power Automate, and build a website with Power Pages.

## Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Understanding Microsoft Power Platform components and their use
- ✓ Discover how to connect and exploit data with Dataverse
- ✓ Create simple applications with Power Apps (low-code/no-code)
- ✓ Automate processes with Power Automate
- ✓ Design a website with Power Pages.
- ✓ Explore the use of AI (Copilot, AI Builder) to improve productivity

## Intended audience

Anyone wishing to start creating customized business solutions with Microsoft Power Platform.

## Prerequisites

No prerequisites.

## Practical details

### Teaching methods

Training in French. Official course materials and assignments in digital format and in English. Good understanding of written English.

## Course schedule

### PARTICIPANTS

Anyone wishing to start creating customized business solutions with Microsoft Power Platform.

### PREREQUISITES

No prerequisites.

### TRAINER QUALIFICATIONS

The experts who lead the training courses are specialists in the subjects covered. They are approved by the publisher and certified for the course. They have also been validated by our teaching teams in terms of both professional knowledge and teaching skills for each course they teach. They have at least three to ten years of experience in their field and hold or have held positions of responsibility in companies.

### ASSESSMENT TERMS

Assessment of targeted skills prior to training.

Assessment by the participant, at the end of the training course, of the skills acquired during the training course.

Validation by the trainer of the participant's learning outcomes, specifying the tools used: multiple-choice questions, role-playing exercises, etc.

At the end of each training course, ITTCERT provides participants with a course evaluation questionnaire, which is then analysed by our teaching teams. Participants also complete an official evaluation of the publisher.

An attendance sheet for each half-day of attendance is provided at the end of the training course, along with a certificate of completion if the participant has attended the entire session.

### TEACHING AIDS AND TECHNICAL RESOURCES

The teaching resources used are the publisher's official materials and practical exercises.
