

Course : IBM Storage Protect 8.1.13 Advanced Administration, Tuning, and Troubleshooting (TS629G)

Official IBM course

Practical course - 5d - 35h00 - Ref. TS6

Price : 4250 € E.T.

With this course, you'll learn how using two or more Storage Protect servers offers more options for moving data around the environment, such as replication to multiple targets. You'll also use IBM Cloud Object Storage to create a storage pool for backups and long-term retention. The course also includes scripting, performance tuning, database and storage pool protection and recovery, and an introduction to IBM Storage Protect Plus.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Describe the extended functions of an IBM Storage Protect multiserver storage environment
- ✓ Manage storage pools and data movement between devices, containers and the cloud
- ✓ Implement server-to-server communications and replication
- ✓ Configurer la gestion des données à long terme à l'aide de règles de conservation et d'ensembles de conservation
- ✓ Use advanced client backup and recovery functions to improve performance
- ✓ Perform daily maintenance and monitor activities to improve safety and recoverability
- ✓ Automate daily processing with macros and scripts
- ✓ Working with Storage Protect server and client settings
- ✓ Solve common problems and perform disaster recovery operations
- ✓ Describe IBM Storage Protect Plus and additional storage portfolio products

Intended audience

Administrators with experience of IBM Spectrum Protect.

PARTICIPANTS

Administrators with experience of IBM Spectrum Protect.

PREREQUISITES

Be able to manage a large number of tasks in an IBM Spectrum Protect environment. TS619G "IBM Storage Protect 8.1.12 Implementation and Administration".

TRAINER QUALIFICATIONS

The experts who lead the training courses are specialists in the subjects covered. They are approved by the publisher and certified for the course. They have also been validated by our teaching teams in terms of both professional knowledge and teaching skills for each course they teach. They have at least three to ten years of experience in their field and hold or have held positions of responsibility in companies.

ASSESSMENT TERMS

Assessment of targeted skills prior to training.

Assessment by the participant, at the end of the training course, of the skills acquired during the training course.

Validation by the trainer of the participant's learning outcomes, specifying the tools used: multiple-choice questions, role-playing exercises, etc.

At the end of each training course, ITTCERT provides participants with a course evaluation questionnaire, which is then analysed by our teaching teams. Participants also complete an official evaluation of the publisher.

An attendance sheet for each half-day of attendance is provided at the end of the training course, along with a certificate of completion if the participant has attended the entire session.

Prerequisites

Be able to manage a large number of tasks in an IBM Spectrum Protect environment. TS619G "IBM Storage Protect 8.1.12 Implementation and Administration".

Practical details

Teaching methods

Training in French. Official course material in digital format and in English. Good understanding of written English.

Course schedule

1 Official program

- IBM Storage Protect in a multiserver environment.
- Storage pool management overview
- Multi-server management.
- Long-term preservation.
- Customer functions and management.
- Daily maintenance and monitoring.
- Automation and scripting.
- Performance tuning.
- Troubleshooting and recovery.
- Additional products IBM Storage Protect.

Dates and locations

REMOTE CLASS

2026 : 8 June, 7 Dec.

PARIS LA DÉFENSE

2026 : 8 June, 7 Dec.

TEACHING AIDS AND TECHNICAL RESOURCES

The teaching resources used are the publisher's official materials and practical exercises.

TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training course.
