

Course : Dematerialization, impact of the European eIDAS regulation

Synthesis course - 1d - 7h00 - Ref. IME

Price : 850 € E.T.

This course introduces you to the new legal framework for dematerialization, ensuring the legality and conformity of documents exchanged between existing European dematerialization systems. You will discover the benefits of the EU Trust Mark label, which guarantees the implementation of trustworthy services.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Discover the European eIDAS regulation
- ✓ Assessing the impact of the regulation on uses and teleservices
- ✓ Understand the main aspects of the new legal framework for dematerialization
- ✓ Assessing the impact of the regulation on dematerialization infrastructures

Intended audience

Business project managers, CIOs, CISOs, project managers, IT design managers, dematerialization managers.

Prerequisites

Experience in managing IT projects or implementing business processes.

Course schedule

PARTICIPANTS

Business project managers, CIOs, CISOs, project managers, IT design managers, dematerialization managers.

PREREQUISITES

Experience in managing IT projects or implementing business processes.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

1 Dematerialization and the new legal framework established by eIDAS

- The concepts and principles of dematerialization.
- Objectives and scope of the new eIDAS regulation.
- Texts repealed by the new regulations.
- The "Trust services" section (electronic document, electronic signature, electronic time-stamping, etc.).
- Current uses: business, internal/external. Adapting resources to the challenges.
- The choice of security level for electronic identity.
- Trust services (simple, advanced, qualified).
- Standards: M460 mandate, XAdES, PAdES, CADES.

Storyboarding workshops

Exchange of best practices in legal compliance for dematerialization projects.

2 Impact of the regulation on dematerialization infrastructures

- The new EU Trust Mark.
- Possible new services (electronic stamps, time stamping, signature validation, qualified storage).
- Obligations for dematerialization service providers.
- Digital identity providers and France Connect.
- New auditing practices.

Storyboarding workshops
