PARCOURS COMPÉTENCES+

CAPM® MASTERCLASS: BECOME A CERTIFIED PROJECT MANAGER

Cours pratique de 9 jours

NEW

Prix : 6070 € E.T.

DESCRIPTION

This course enables you to master the fundamentals of project management according to PMI® standards, and to plan, monitor, and close projects using predictive, agile, or hybrid approaches. You will develop your interpersonal skills (leadership, communication, stakeholder management) and learn to use project management and reporting tools. Finally, you'll effectively prepare for the CAPM® certification using official study materials, a simulator, and collaborative activities.

INTENDED AUDIENCE

Employees or future project managers who wish to strengthen their project management skills. Candidates for CAPM® certification.

TEACHING OBJECTIVES

At the end of the training, the participant will be able to:

- Master the fundamentals of project management according to PMI® standards
- Know how to plan, monitor, and close out a project in a predictive, agile, or hybrid environment
- Develop your key skills: leadership, communication, and stakeholder management
- Use management, planning, and reporting tools
- Effectively prepare for the CAPM® certification in line with the four domains of the 2023 syllabus

PREREQUISITES

Minimum high school diploma and experience working in a project-based environment.line breakCheck your eligibility for the training program by taking the online test: https://www.orsys.fr/qcm/?stagecd=APM&languecd=fr

PARTICIPANTS

Employees or future project managers who wish to strengthen their project management skills. Candidates for CAPM® certification.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.
Participants also complete a placement test before and after the course to measure the skills they've developed.

TEACHING AIDS AND TECHNICAL RESOURCES

• The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
• At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
• A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training.

ACCESSIBILITY FOR PEOPLE WITH DISABILITIES

PRACTICAL DETAILS

Practical and digital activities
Digital activities between sessions on a collaborative platform. Interactive presentations, practical case studies, collaborative workshops, educational games, and digital tools for active learning.

Mentoring
A lead instructor guides participants through the program: he or she grades case studies and exercises on the collaborative portal as part of the intersession activities to ensure personalized and ongoing support.

Teaching methods
In-person or online, depending on the module, with active learning and a common thread running through the program. A smooth pace: over 4 months, one module per month for a well-balanced schedule that combines efficiency and flexibility. Digital activities between sessions: e-learning, videos, and supplementary learning materials.
