

# Course : Data protection officer (DPO), CDPO-CNIL PECB certification

*Practical course - 5d - 35h00 - Ref. OF2*

*Price : 3440 € E.T.*

Certified in accordance with the Commission Nationale de l'Informatique et des Libertés (CNIL) DPO skills certification referential. This course provides all the skills to become a DPO and meet the requirements of the General Data Protection Regulation (RGPD) and the CNIL.

## Teaching objectives

**At the end of the training, the participant will be able to:**

- ✓ Understand the basic concepts and components of data protection
- ✓ Understanding the role and missions of the Data Protection Officer (DPO)
- ✓ Understanding the content of general data protection regulations
- ✓ Understand the concepts, approaches, methods and techniques for effective data protection

## Intended audience

Data Protection Officer (DPO), Délégué à la Protection des Données (DPD), any person whose mission is to ensure compliance with personal data protection within their organization.

## Prerequisites

No special knowledge required. Two years of professional experience are required by the CNIL to pass the exam at the end of the 35-hour training course.

## Certification

Official certification exam, certified in accordance with the Commission Nationale de l'Informatique et des Libertés (CNIL) DPO skills certification reference framework. The 3-hour exam is taken offline.

## Remote certifications

[See the certifier's official documentation](#) for the list of prerequisites for completing the online certification exam.

### PARTICIPANTS

Data Protection Officer (DPO), Délégué à la Protection des Données (DPD), any person whose mission is to ensure compliance with personal data protection within their organization.

### PREREQUISITES

No special knowledge required. Two years of professional experience are required by the CNIL to pass the exam at the end of the 35-hour training course.

### TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

### ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

## Practical details

### Teaching methods
