

Course : RGPD, raising awareness of data protection regulations

Synthesis course - 1d - 7h00 - Ref. TPD

Price : 850 € E.T.

★★★★☆ 4,3 / 5

To meet the needs of the private and public sectors with regard to the General Data Protection Regulation (GDPR), the role of the DPO is becoming paramount. This course introduces you to the requirements of the RGPD within an organization.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Understand the basic concepts and components of data protection
- ✓ Understanding the content of general data protection regulations
- ✓ Understanding the role of protection authorities
- ✓ Know the legal framework of the RGPD and its scope of application
- ✓ Understand the different stages of compliance and the steps to follow
- ✓ Identify compliance tools
- ✓ Implement a compliance action plan

Intended audience

Data Protection Officers, IT Departments, HR Departments, lawyers, anyone involved in the design of projects dealing with personal data.

Prerequisites

No special knowledge required.

PARTICIPANTS

Data Protection Officers, IT Departments, HR Departments, lawyers, anyone involved in the design of projects dealing with personal data.

PREREQUISITES

No special knowledge required.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

Certification

DiGiTT® certification is optional when you register for this training course, and consists of 3 stages: taking a Diag® before the course, access to a digithèque to learn the concepts and notions for each digital skill, and then taking the certification exam. This consists of a 90-minute test available in English and French. The result certifies your skill level out of 1000 points (beginner, intermediate, advanced, expert). Taking this course alone is not enough to guarantee a maximum score on the exam. You can schedule and take the exam online within 4 weeks of the start of your session.

Practical details

Hands-on work

Set of questions/answers at the end of each area.

Teaching methods

Set of questions/answers at the end of each area.

Course schedule

1 The fundamentals of privacy
