

Course : Digital accessibility awareness, issues and regulations

Synthesis course - 1d - 7h00 - Ref. ANU

Price : 990 CHF E.T.

★★★★☆ 4,3 / 5

On completion of the course, learners will be able to take digital accessibility into account in the development of web and mobile applications.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Understanding the different types of disability
- ✓ Understand the challenges and benefits of accessibility standards
- ✓ Knowing the laws and technical reference standards
- ✓ Acquire a basic vocabulary for dialogue with professionals in the field
- ✓ Identify problems encountered by people with disabilities and find appropriate solutions
- ✓ Understanding the problems faced by people with disabilities

Intended audience

Anyone wishing to gain a better understanding of digital accessibility.

Prerequisites

No special knowledge required.

Practical details

Demonstration

This course is punctuated by demonstrations and group discussion sessions.

Course schedule

PARTICIPANTS

Anyone wishing to gain a better understanding of digital accessibility.

PREREQUISITES

No special knowledge required.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

1 Introduction

- Definition of digital accessibility.
- Trends in accessibility in the public and private sectors.
- Historical evolution of the notion of disability and accessibility.
- Inclusion as a human right at the UN.
- The impact of inaccessibility on the daily lives of disabled people.
- Fields of application: keyboard navigation, forms, color contrast, media, page structure.

2 Raising awareness of the difficulties faced by disabled people

- Raising awareness of different types of disability.
- Navigation and consultation difficulties encountered by people with disabilities.
- Overview of display customization functions and tools.

Demonstration

Demonstrations of technical navigation aids, by type of disability.

3 Regulatory framework in France and abroad

- Convention on the Rights of Persons with Disabilities.
- France's Disability Act of 2005.
- 2018 update of article 47 of the Disability Act.
- The Digital Accessibility Decree of July 24, 2019.
- Obligations for public or private bodies entrusted with a public service mission.

4 Technical accessibility standards

- The standards of W3C, the web standardization body, and their French versions.
- The WAI (Web Accessibility Initiative) and its WCAG (Web Content Accessibility Guidelines) version 2.1.
- RGAA v4 (référentiel général d'amélioration de l'accessibilité), the French application of WCAG.
- The AccessiWeb standard, its method and certification.

Group discussion

Review of the 13 thematic groupings of RGAA accessibility criteria.
returnchariot returnchariot
