

Course : IBM Cognos Analytics V12: Certification Preparation

Practical course - 1d - 7h00 - Ref. CGJ

Price : 870 CHF E.T.

NEW

An IBM Cognos Analytics v12 Certified Analyst is responsible for creating intermediate and advanced reports, as well as dashboards and stories. They have experience with Cognos-related projects, have successfully resolved complex issues in both reports and dashboards, and are familiar with the data module creation tool. They are capable of participating in project implementations as an active member of a project team. This training will prepare you for the IBM Certified Cognos Analytics v12 Analyst – Professional certification. You will gain in-depth knowledge of creating dashboards, stories, reports, and features before learning how to troubleshoot runtime errors.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Dashboards and Stories
- ✓ Reports
- ✓ Advanced Reports
- ✓ Data and Other Features
- ✓ Anomalies and Performance

Intended audience

IT professionals and business users of IBM Cognos Analytics version 12.

Prerequisites

This training course will prepare you for the IBM Certified Cognos Analytics v12 Analyst - Professional certification.

Certification

Exam C1000-191: IBM Cognos Analytics v12 Analyst – Professional. Exam Objectives: During the exam development process, Subject Matter Experts (SMEs) define all the tasks, knowledge, and experience an individual would need to successfully fulfill their role in using the product and solution. These are represented by the objectives below and the exam questions related to each objective. Orsys does not provide the exam voucher.

PARTICIPANTS

IT professionals and business users of IBM Cognos Analytics version 12.

PREREQUISITES

This training course will prepare you for the IBM Certified Cognos Analytics v12 Analyst - Professional certification.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.
