

Course : DiGiTT® certification: develop your digital knowledge and skills

Synthesis course - 3d - 21h00 - Ref. DGT

Price : 2790 CHF E.T.

Acquiring, maintaining and developing digital skills is essential in an environment that is increasingly dependent on technology and digital progress. Whatever your sector of activity, it's essential to understand how digital technology impacts your daily life and the way you do your job. This summary course provides an exhaustive overview of the state of the art in the digital ecosystem, and prepares you to take the DiGiTT® certification in the nine key digital skills.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Develop your knowledge of digital technologies
- ✓ Acquire web marketing and e-commerce site management techniques
- ✓ Optimiser sa communication avec des outils digitaux
- ✓ Creating and sharing digital content

Intended audience

Employees, freelancers, students and anyone wishing to certify their digital knowledge and skills.

Prerequisites

No special knowledge required.

Certification

DiGiTT® certification is optional when you register for this training course, and consists of 3 stages: taking a Diag® before the training course, access to a digithèque to learn the concepts and notions for each digital skill, and then taking the certification exam. This consists of a 90-minute test available in English and French. The result certifies your skill level out of 1000 points (beginner, intermediate, advanced, expert). Taking this course alone is not enough to guarantee a maximum score on the exam. You can schedule and take the exam online within 4 weeks of the start of your session.

PARTICIPANTS

Employees, freelancers, students and anyone wishing to certify their digital knowledge and skills.

PREREQUISITES

No special knowledge required.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

Practical details

Hands-on work

Theoretical input, exchange of best practices. Examples and case studies.
