

Course : Practice Enterprise Architecture according to the TOGAF standard

Practical course - 2d - 14h00 - Ref. FAE

Price : 2120 CHF E.T.

The TOGAF® architecture framework (The Open Group Architecture Framework) has become a de facto standard for enterprise architecture over the last few years. TOGAF® Standard 10th Edition facilitates the adoption of proven best practices defined by the entire architecture forum. It shows where to find sustainable, universal concepts, and where to look for new, emerging ideas. This training course will teach you how to apply the TOGAF® approach to transform and manage change.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Consolidate your knowledge of the basic concepts described in the TOGAF® standard
- ✓ Master the detailed phases and techniques defined in the Architecture Development Method (ADM)
- ✓ Be able to apply ADM
- ✓ Learn about the various support options available for implementing ADM

Intended audience

Business activity managers, MOA team members, enterprise architecture program managers and members, IS architects, IS planners.

Prerequisites

Must have attended the training course "Understanding enterprise architecture according to the TOGAF standard" (ref. EAF).

Certification

On completion of this course, participants will be able to take the TOGAF® Enterprise Architecture Part 2 (Practitioner) exam.

PARTICIPANTS

Business activity managers, MOA team members, enterprise architecture program managers and members, IS architects, IS planners.

PREREQUISITES

Must have attended the training course "Understanding enterprise architecture according to the TOGAF standard" (ref. EAF).

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.

Participants also complete a placement test before and after the course to measure the skills they've developed.

Practical details

Storyboarding workshops

Discussion of participants' organizational cases. Check understanding as you progress through the repository, using multiple-choice questions.

Teaching methods

Active pedagogy encouraging personal involvement and exchanges between participants.
