Course : ISO/CEI 27035 Foundation, PECB certification

Practical course - 2d - 14h00 - Ref. IZC
Price : 1930 CHF E.T.

NEW

The ISO/IEC 27035 Foundation course will provide you with the fundamentals for implementing an incident management plan and managing information security incidents. Thanks to this training, you will understand the processes involved in managing information security incidents.

Teaching objectives

At the end of the training, the participant will be able to:

- Understand the fundamental concepts of information security incident management
- Understanding the correlation between ISO/IEC 27035 and other standards and regulatory frameworks
- Understand the process approach for effectively managing information security incidents

Intended audience

Anyone interested in information security incident management, or wishing to acquire a grounding or career in this field.

Prerequisites

No special knowledge required.

Certification

L'examen consiste à répondre à 40 questions, en 1h00 à livre fermé. Un manuel de cours contenant plus de 200 pages d'informations et d'exemples pratiques est fourni. À l'issue du cours, une attestation de suivi de la formation de 14 unités de FPC (Formation professionnelle continue) sera délivrée aux participants ayant suivi la formation. Les candidats ayant suivi la formation mais échoué à l'examen peuvent le repasser gratuitement une seule fois dans un délai de 12 mois à compter de la date initiale de l'examen.

Course schedule

PARTICIPANTS

Anyone interested in information security incident management, or wishing to acquire a grounding or career in this field.

PREREQUISITES

No special knowledge required.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.
Participants also complete a placement test before and after the course to measure the skills they've developed.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

1 Fundamental principles and concepts of incident management

- Introduction to the main principles of ISO/CEI 27035.
