

Course : ISO/IEC 27701 Lead Implementer, PECB certification

Privacy Information Management System, privacy protection
Practical course - 5d - 35h00 - Ref. VPL
Price : 4160 CHF E.T.

NEW

This training course will provide you with the knowledge you need to set up a privacy management system (PIMS) compliant with the ISO/IEC 27701 standard. You'll learn about best practices for managing personal data and complying with the various privacy protection rules.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Explain the concepts, approaches, methods and techniques used to implement and manage a PIMS
- ✓ Understand the correlation between ISO/IEC 27701, ISO/IEC 27001 and other standards
- ✓ Understand the operation of a PIMS based on ISO/IEC 27701 and its main processes
- ✓ Learn how to interpret and implement the requirements of ISO/IEC 27701 in the context of an organization.
- ✓ Develop the expertise to effectively plan, implement, manage, control and maintain a PIMS.

Intended audience

DPOs, data protection consultants and advisors, DCP managers, privacy compliance officers, PIMS team members.

Prerequisites

Fundamental understanding of information security and in-depth knowledge of ISMS implementation principles.

Certification

Examen composé de 12 questions ouvertes, à traiter en 3h. L'examen se passe en distanciel et en différé. Une attestation d'achèvement de formation de 31 unités de FPC (Formation professionnelle continue) sera délivrée. En cas d'échec à l'examen, vous pouvez le reprendre gratuitement dans les 12 mois suivants.

PARTICIPANTS

DPOs, data protection consultants and advisors, DCP managers, privacy compliance officers, PIMS team members.

PREREQUISITES

Fundamental understanding of information security and in-depth knowledge of ISMS implementation principles.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

Course schedule

- 1 **Introduction to ISO/IEC 27701 and PIMS**
 - Training objectives and structure.
 - Standards and regulatory frameworks.
 - Privacy management system (PIMS).
 - Fundamental concepts and principles of information security and privacy protection.
 - Start of PIMS implementation.
 - Analysis of WSIS scope and applicability statement.
 - PIMS scope of application.
 - Management approval.
 - Privacy policy.
 - Assessing the risk of invasion of privacy.
- 2 **Planning the implementation of a PIMS**
 - Privacy impact assessment.
 - Declaration of applicability of PIMS.
 - Documentation management.
 - Measurement selection.
 - Implementation of measures.
- 3 **Implementing a PIMS**
 - Implementation of measures (continued).
 - Implementation of specific measures for IPI controllers.
 - Implementation of specific measures for IPI processors.
- 4 **Monitoring, continuous improvement and preparation for the PIMS certification audit**
 - Awareness-raising, training and communication.
 - Monitoring, measurement, analysis, evaluation and management review.
 - Internal audit.
 - Handling non-conformities.
 - Continuous improvement.
 - Preparing for the certification audit.
 - Certification process and end of training.
- 5 **Areas of competence covered by the exam**
 - Area 1: Fundamental principles and concepts of a privacy management system.
 - Area 2: Privacy management system benchmarks and best practices.
 - Area 3: Planning the implementation of a PIMS according to ISO/IEC 27701.
 - Area 4: PIMS implementation according to ISO/IEC 27701.
 - Area 5: PIMS performance evaluation, monitoring and measurement to ISO/IEC 27701.
 - Area 6: Continuous improvement of a PIMS according to ISO/IEC 27701.
 - Area 7: Preparing for a PIMS certification audit.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training.

ACCESSIBILITY FOR PEOPLE WITH DISABILITIES
