

Course : Dorik, create your web projects in no-code

Create pages, responsive sites, CMS with this "page builder" tool

Practical course - 2d - 14h00 - Ref. DIK

Price : 1280 € E.T.

In a context of accelerating digital transformation and lack of resources, no-code platforms make web project development faster, more accessible and scalable, without forgetting quality. Dorik is a versatile tool that can be used to create a single page as well as very complete sites.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Getting started with Dorik
- ✓ Create a landing page
- ✓ Integrating different blocks
- ✓ Use integrations and publish your project
- ✓ Create a website

Intended audience

Anyone wishing to create a website without HTML/CSS/JavaScript knowledge.

Prerequisites

Basic computer skills.

Course schedule

1 Introduction to no-code and web design

- The challenges of no-code.
- Focus on app builders.
- For whom and what?

Storyboarding workshops

Acceleration of digital transformation, the idea of using non-computer resources, tools increasingly available to users.

PARTICIPANTS

Anyone wishing to create a website without HTML/CSS/JavaScript knowledge.

PREREQUISITES

Basic computer skills.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.

Participants also complete a placement test before and after the course to measure the skills they've developed.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

2 Getting started with Dorik

- Dorik overview: interface and features.
- Examples and use cases.
- Access existing templates.
- Identify the different types of licenses.
- How to create a Dorik account.

Hands-on work

Create a Dorik account. Tool installation.

3 Create your first Dorik project

- Page structure.
- Managing styles in Dorik.
- Discovering templates.
- Build your site using a template.
- Add elements and customize your site.

Hands-on work

Creating a landing page, using a template. Manipulating elements.

4 A 100% customized site

- Understanding rows and columns.
- Mastering styles.
- Overview of Dorik components and elements.
- Page management.
- Manage your site's responsive design.

Hands-on work

Continued use of Dorik with the creation of an e-commerce site.

5 Using Dorik's CMS

- Discover Dorik's CMS (content management system).
- Understanding the Dashboard.
- Create your first post.
- Mastering collections.
- Set up a membership system.

Hands-on work

Creation of a membership site with Dorik.

6 Available integrations and publishing your project

- Install Google Analytics, pixel Meta (Facebook pixel) or Hotjar.
- Display an Airtable base on your site.
- Publish your site.
- Connect your own domain name.
- Download or transfer your Dorik project.

Hands-on work

Installation of Google Analytics and publication of the Dorik project.

TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training.
