Course : Adobe InDesign, advanced

Practical course - 2d - 14h00 - Ref. IDP
Price : 1180 € E.T.

★★★★⯪ 4,6 / 5

During this training course, you'll hone your skills in InDesign, the versatile DTP software dedicated to creative design. You'll deepen your knowledge, enabling you to master advanced tools and commands, as well as discovering new features for even more advanced creations.

🎯 Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Master the basic line grid for precise alignment of text lines
- ✓ Using advanced transformations on blocks
- ✓ Create and apply paragraph and character styles
- ✓ Generate interactive tables of contents
- ✓ Use InDesign's advanced functions

Intended audience

Graphic designers, layout artists, illustrators responsible for the professional publication of the company's print/digital media. Assistants responsible for elaborate page layouts.

Prerequisites

Basic knowledge of InDesign software or knowledge equivalent to that acquired in the course "InDesign, getting started".

Course schedule

① **The base line grid**

- Prepare an alignment grid for lines of text.
- Align a paragraph on the grid.

Hands-on work
Create a document containing text and apply a baseline grid to align the lines of text.

PARTICIPANTS

Graphic designers, layout artists, illustrators responsible for the professional publication of the company's print/digital media. Assistants responsible for elaborate page layouts.

PREREQUISITES

Basic knowledge of InDesign software or knowledge equivalent to that acquired in the course "InDesign, getting started".

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.
Participants also complete a placement test before and after the course to measure the skills they've developed.

2 Transforming a block

- Modify the shape of a block.
- Deform a block manually.
- Merge multiple blocks (Pathfinder).
- Cut a block (Pathfinder).

Hands-on work
Design a composition using blocks of different shapes. Modify the shape of certain blocks, deform them manually and merge or cut blocks as required.

3 Styles and templates

- Create paragraph, character and nested styles.
- Load styles from another document.
- Create templates and template blocks.
- Create pages from templates.
- Replace template blocks.
- Save the document as a template.

Hands-on work
Write text with multiple paragraph and character styles. Create nested styles to apply complex formatting.

4 Creating an interactive table of contents

- Prepare the necessary styles.
- Generate table of contents.
- Manage table of contents options.
- Save as PDF with interactivity recognition.

Hands-on work
Design a document containing chapters and sub-chapters. Create the necessary paragraph styles and generate an interactive table of contents.

5 The book

- Prepare book documents.
- Create the book.
- Add documents to the book.
- Print book documents.
- Check the book.
- Export book as PDF.

Hands-on work
Prepare multiple documents for a book. Create a book in InDesign and add documents. Check and export the book as a PDF.

(6) Tabs and tables

- Preparing tabs.
- Apply tabs to text.
- Create a table.
- Modify table attributes.
- Import an unlinked table.
- Import a table linked to the source file.

Hands-on work
Write text containing elements requiring tabs. Create and format a table to organize information.

(7) Layers

- Create, duplicate, hide and lock a layer.
- Change the order in which layers are superimposed.

Hands-on work
Create a document with multiple layers and organize them. Apply visual effects using layer management.

(8) Liquid layout, saving and preparation for printing

- Using the Page tool.
- Layout variants.
- Check fonts, imported images and colors.
- Assemble the document.
- Create bookmarks and hyperlinks.
- Manage compression.
- Save the original file (.indd) and an earlier version (.idml).

Hands-on work
Check a document before printing, including fonts, images and colors. Assemble document and save in different formats.

Options

Certification : 80 € HT

TOSA® certification certifies the learner's skills on a 1,000-point scale for a period of 3 years. The TOSA® diploma is issued if the learner's score exceeds 551 points. Once the exam has been taken, the learner can consult his or her results online, and receives an e-mail with a certificate, a detailed summary of his or her skills, and the diploma within 5 days. The exam lasts 1 H 00 and consists of 35 exercises alternating between manipulations on the software and multiple-choice questions, the difficulty of which varies according to the learner's answers. Unless specifically requested, the course is given by default in French and on the most recent software version. Monitoring is carried out by software and recorded for compliance control purposes.
