

# Course : Agile Tester - ISTQB Agile Tester Foundation certification

ISTQB® Certified Tester Foundation level, Agile Tester (CTFL-AT)

Practical course - 3d - 21h00 - Ref. ISA

Price : 2210 € E.T.

 4,8 / 5

BEST

This course will provide you with the knowledge you need to deploy and maintain a security solution based on ISA Server 2006.

## INFORMATION

PLEASE NOTE: from 03/01/2026, the certification exam will no longer be held at the end of the session, but remotely and off-line, on the date of your choice (voucher valid for 1 year).

## Intended audience

Security manager. System and network engineer. Security architect. Network or security technician.

## Prerequisites

Basic knowledge of Windows 2003 administration, networks and security.

## Certification

The exam is taken in the form of a 40-question multiple-choice test lasting 90 minutes (available in English or French). A minimum score of 65% correct answers is required to pass. The exam is supervised by a GASQ examiner. The certification exam takes place at the end of the training session: for classroom-based sessions, it is taken on paper or on a digital tablet; for virtual classroom sessions, the exam is taken online.

## Course schedule

1 Presentation of Microsoft ISA Server 2006

### Exercise

Installation and configuration of ISA Server 2006.

## PARTICIPANTS

Security manager. System and network engineer. Security architect. Network or security technician.

## PREREQUISITES

Basic knowledge of Windows 2003 administration, networks and security.

## TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

## ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

## 2 Activating Internet access

- Configuration of the system strategy.
- Internet access authorisation.
- The different types of authentication.

### Exercise

Internet access management.

## 3 Configuring internal access

### Exercise

Publishing a web server. Publishing a web farm. Publishing an Exchange server.

## 4 Configuring VPNs

- Presentation and configuration for client access.
- Creation and management of CMAC profiles.

### Exercise

Hands-on activity

## 5 Configuring remote access.

### PARIS LA DÉFENSE

2026: 23 Mar., 20 Apr., 18 May, 15 June, 16 Sep., 28 Oct., 23 Nov., 14 Dec.

### LILLE

2026: 23 Mar., 15 June, 28 Oct.

## TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

## TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training.

## ACCESSIBILITY FOR PEOPLE WITH DISABILITIES

Do you need special accessibility accommodations? Contact Mrs. Fosse, Disability Manager, at [psh-accueil@orsys.fr](mailto:psh-accueil@orsys.fr) to review your request and its feasibility.
