TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

1 Introducing Keynote

- Introduction to Keynote's interface and key features.
- Work environment configuration.
- Document management: create, open and save documents.

Hands-on work

Explore the interface with the different elements of the main window and create a new Keynote document.

2 Creating slides

- Application of different slide types: title, text, image, table, etc.
- Background and theme management.
- Insert multimedia content: images, videos, audio.
- Use editing tools to organize and format slide elements.

Hands-on work

Create a slide containing text, an image and a table. Apply different backgrounds and themes to personalize the slide.

3 Slide formatting and animation

- Text formatting, choice of fonts and colors
- Use animation and transition effects to make slides more dynamic.
- Create smooth transitions between slides.

Hands-on work

Insert a shape or graphic object on a slide and modify its properties (color, size, position, etc.). Create graphs to visualize data.

4 Managing graphic objects and charts

- Insert and modify graphic objects: shapes, lines, arrows, etc.
- Create and customize graphs to visualize data.
- Use alignment and distribution tools to organize objects on slides.

Hands-on work

Insert a shape or graphic object on a slide and modify its properties (color, size, position, etc.). Create graphs to visually represent data.

5 Collaborate and share presentations

- Use real-time collaboration features.
- Export and share presentations in various formats: PDF, video, etc.
- Configure privacy and sharing options.

Hands-on work

Share the presentation with another participant and collaborate in real time on a specific slide. Then export the presentation in PDF or video format to share with others.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training.
