

Course : International cash management

Economic issues and management methods

Practical course - 2d - 14h00 - Ref. TIT

Price : 1310 € E.T.

The economic stakes involved in international cash management are considerable. Mastering these management techniques and foreign exchange risks is a key factor in the success of any internationalization or export project. This training course will enable you to master all the facets.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Understanding the challenges and objectives of group cash management
- ✓ Take stock of the context prior to setting up a new organization
- ✓ Define the centralization strategy and its operational implementation
- ✓ Implement an international cash pooling project and understand the challenges, constraints and benefits.

Intended audience

Administrative and financial directors, management controllers, accountants and treasurers.

Prerequisites

Bonnes connaissances en gestion de trésorerie et expérience de la finance d'entreprise.

Practical details

Theoretical input, practical exercises, exchanges and case studies.

Course schedule

PARTICIPANTS

Administrative and financial directors, management controllers, accountants and treasurers.

PREREQUISITES

Bonnes connaissances en gestion de trésorerie et expérience de la finance d'entreprise.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.

Participants also complete a placement test before and after the course to measure the skills they've developed.
