

# Course : Manage and extend Microsoft 365 Copilot (Microsoft MS-4017)

Official course MS-4017

*Practical course - 1d - 7h00 - Ref. C3G*

*Price : 870 € E.T.*

NEW

With this training course, you'll learn how to manage and extend Microsoft 365 Copilot to meet the specific needs of your organization. You'll discover the basic principles of Copilot, learn how to deploy and administer it, and then explore the fundamentals of its scalability.

## Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Understand how Microsoft 365 Copilot works and its architecture.
- ✓ Learn how to deploy and administer Copilot in a Microsoft 365 environment.
- ✓ Configure Copilot according to your organization's needs and policies.
- ✓ Explore Copilot extension and integration options.
- ✓ Reinforce governance and security around the use of Copilot.

## Intended audience

Administrators, Microsoft 365 administrators and IT professionals wishing to learn how to manage and extend Microsoft 365 Copilot.

## Prerequisites

Good knowledge of Microsoft 365 and the basics of IT administration, ideally with experience of PowerShell.

## Practical details

### Teaching methods

Training in French. Official course material in digital format and in English. Good understanding of written English.

## Course schedule

### PARTICIPANTS

Administrators, Microsoft 365 administrators and IT professionals wishing to learn how to manage and extend Microsoft 365 Copilot.

### PREREQUISITES

Good knowledge of Microsoft 365 and the basics of IT administration, ideally with experience of PowerShell.

### TRAINER QUALIFICATIONS

The experts who lead the training courses are specialists in the subjects covered. They are approved by the publisher and certified for the course. They have also been validated by our teaching teams in terms of both professional knowledge and teaching skills for each course they teach. They have at least three to ten years of experience in their field and hold or have held positions of responsibility in companies.

### ASSESSMENT TERMS

Assessment of targeted skills prior to training.

Assessment by the participant, at the end of the training course, of the skills acquired during the training course.

Validation by the trainer of the participant's learning outcomes, specifying the tools used: multiple-choice questions, role-playing exercises, etc.

At the end of each training course, ITTCERT provides participants with a course evaluation questionnaire, which is then analysed by our teaching teams. Participants also complete an official evaluation of the publisher.

An attendance sheet for each half-day of attendance is provided at the end of the training course, along with a certificate of completion if the participant has attended the entire session.
