

Course : IBM Introducing z/OS UNIX System Services (OP05G)

Official IBM course

Practical course - 3d - 21h00 - Ref. OP0

Price : 2730 € E.T.

In this training course, you'll learn how open standards are implemented in a z/OS system by z/OS UNIX. You'll also learn about UNIX system services and the role of z/OS as a server in the open systems environment. This course is an introductory level. It provides an overview of z/OS UNIX system services (generally abbreviated to z/OS UNIX) as seen by the user. Installation and implementation details for system programmers are not covered in this course.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Discuss the role of z/OS in an open systems environment
- ✓ Identify the basic terms used in z/OS UNIX
- ✓ Defining z/OS UNIX components
- ✓ Explain the main functions provided by z/OS UNIX
- ✓ Discuter des opportunités d'applications dans un environnement z/OS UNIX
- ✓ Identifier les éléments de base z/OS et les fonctionnalités facultatives qui composent z/OS UNIX
- ✓ Utilisez les deux interfaces interactives disponibles pour accéder aux services

Intended audience

All IT professionals who will be using z/OS UNIX.

Prerequisites

Basic knowledge of z/OS equivalent to Introduction to the z/OS environment (ES05G).

PARTICIPANTS

All IT professionals who will be using z/OS UNIX.

PREREQUISITES

Basic knowledge of z/OS equivalent to Introduction to the z/OS environment (ES05G).

TRAINER QUALIFICATIONS

The experts who lead the training courses are specialists in the subjects covered. They are approved by the publisher and certified for the course. They have also been validated by our teaching teams in terms of both professional knowledge and teaching skills for each course they teach. They have at least three to ten years of experience in their field and hold or have held positions of responsibility in companies.

ASSESSMENT TERMS

Assessment of targeted skills prior to training.

Assessment by the participant, at the end of the training course, of the skills acquired during the training course.

Validation by the trainer of the participant's learning outcomes, specifying the tools used: multiple-choice questions, role-playing exercises, etc.

At the end of each training course, ITTCERT provides participants with a course evaluation questionnaire, which is then analysed by our teaching teams. Participants also complete an official evaluation of the publisher.

An attendance sheet for each half-day of attendance is provided at the end of the training course, along with a certificate of completion if the participant has attended the entire session.

Practical details

Hands-on work

Alternating theory and practice. A great deal of practical work is carried out throughout the course.

Teaching methods

Training in French. Official course material in digital format and in English. Good understanding of written English.

Course schedule

1 Official program

- Introduction to z/OS UNIX.
- Introduction to z/OS UNIX.
- Hierarchical file system.
- Shell and z/OS UNIX utilities.
- z/OS UNIX shell commands.
- Travailler avec Shell.
- Functions in z/OS UNIX.

Hands-on work

Alternating theory and practice. A great deal of practical work is carried out throughout the course.

Dates and locations

REMOTE CLASS

2026 : 17 Mar., 26 May, 13 Oct., 15 Dec.

PARIS LA DÉFENSE

2026 : 17 Mar., 26 May, 13 Oct., 15 Dec.

TEACHING AIDS AND TECHNICAL RESOURCES

The teaching resources used are the publisher's official materials and practical exercises.

TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training course.

ACCESSIBILITY FOR PEOPLE WITH DISABILITIES

Do you have specific accessibility requirements? Contact Ms FOSSE, disability advisor, at the following address: psh-accueil@orsys.fr so that we can assess your request and its feasibility.
