

Course : Palo Alto Networks - Panorama: NGFW Management (formerly EDU-220)

Official course, preparation for Palo Alto Networks exams

Practical course - 2d - 14h00 - Ref. PA2

Price : 1850 € E.T.

★★★★★ 5 / 5

With this training course, you'll learn how to configure and manage Panorama, the security manager integrated into the PAN-OS® operating system from Palo Alto Networks. You'll gain a better understanding of Panorama's role in managing and securing the entire network. You'll also learn how to use combined reports to gain a holistic view of Palo Alto Networks' entire fleet of next-generation firewalls.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Configuring and managing the next-generation Panorama management server
- ✓ Gain experience in configuring models and device groups
- ✓ Gain experience in administration, log collection, logging and reporting
- ✓ Understanding planning and design constraints for Panorama deployment

Intended audience

Security administrators, security operations specialists, security analysts, security engineers and security architects.

Prerequisites

Completion of Firewall Essentials: Configuration and Management (Ref. PA1) or equivalent.

PARTICIPANTS

Security administrators, security operations specialists, security analysts, security engineers and security architects.

PREREQUISITES

Completion of Firewall Essentials: Configuration and Management (Ref. PA1) or equivalent.

TRAINER QUALIFICATIONS

The experts who lead the training courses are specialists in the subjects covered. They are approved by the publisher and certified for the course. They have also been validated by our teaching teams in terms of both professional knowledge and teaching skills for each course they teach. They have at least three to ten years of experience in their field and hold or have held positions of responsibility in companies.

ASSESSMENT TERMS

Assessment of targeted skills prior to training.

Assessment by the participant, at the end of the training course, of the skills acquired during the training course.

Validation by the trainer of the participant's learning outcomes, specifying the tools used: multiple-choice questions, role-playing exercises, etc.

At the end of each training course, ITTCERT provides participants with a course evaluation questionnaire, which is then analysed by our teaching teams. Participants also complete an official evaluation of the publisher.

An attendance sheet for each half-day of attendance is provided at the end of the training course, along with a certificate of completion if the participant has attended the entire session.

Practical details

Teaching methods

Training in French. Official course material in digital format and in English. Good understanding of written English.
