

Course : Applying Professional Scrum™

Scrum.org Official Training

Practical course - 2d - 14h00 - Ref. PSL

Price : 2150 € E.T.

This is a hands-on course providing the knowledge needed to work with Scrum. Together, participants will experiment with building a product with Scrum, and working in agile. This course is designed to be industry agnostic. Participants in this course are eligible to take the Professional Scrum Master™ (PSM) certification.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Learn what agility is and how Scrum differs from traditional methods
- ✓ Assimilate (or review) the fundamentals of Scrum and how to use them
- ✓ Developing a clear vision of day-to-day work with Scrum
- ✓ Evaluate the concrete benefits that Scrum will bring to your team
- ✓ Exploring the challenges and different responsibilities within a Scrum team
- ✓ Identify and avoid common pitfalls

Intended audience

Any team or individual wishing to experience working with Scrum through practice. Candidates for Professional Scrum Master™ (PSM) certification.

Prerequisites

Internet skills and notions of agility and Scrum required.

Certification

Participants in Applying Professional Scrum™ training will receive a password to take the PSM™ certification. Recognized by the industry, Scrum.org certifications are rigorous assessments requiring a minimum score of 85%. A second chance to pass the certification is given to participants who have made their attempt within 14 days of the training. Participation in the training course entitles the participant to 14 PDU credits from PMI.

[Comment passer votre examen ?](#)

PARTICIPANTS

Any team or individual wishing to experience working with Scrum through practice. Candidates for Professional Scrum Master™ (PSM) certification.

PREREQUISITES

Internet skills and notions of agility and Scrum required.

TRAINER QUALIFICATIONS

The experts who lead the training courses are specialists in the subjects covered. They are approved by the publisher and certified for the course. They have also been validated by our teaching teams in terms of both professional knowledge and teaching skills for each course they teach. They have at least three to ten years of experience in their field and hold or have held positions of responsibility in companies.

ASSESSMENT TERMS

Assessment of targeted skills prior to training.

Assessment by the participant, at the end of the training course, of the skills acquired during the training course.

Validation by the trainer of the participant's learning outcomes, specifying the tools used: multiple-choice questions, role-playing exercises, etc.

At the end of each training course, ITTCERT provides participants with a course evaluation questionnaire, which is then analysed by our teaching teams. Participants also complete an official evaluation of the publisher.

An attendance sheet for each half-day of attendance is provided at the end of the training course, along with a certificate of completion if the participant has attended the entire session.

Practical details

Teaching methods

Training in French. Official course material in digital format and in English. Good understanding of written English.
