A triangular operation is above all logistical. It reduces supply chain costs, reduces transit time from origin to destination, and optimizes the supply chain. The workshops in this training course will enable you to adopt best practices for your intra-Community, international and mixed operations.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Understand the contractual, fiscal, customs, logistical, documentary and commercial impact of a triangular operation
- ✓ Understanding the stakes and risks of a triangular operation
- ✓ Define a procedure for carrying out triangular operations
- ✓ Implement best practices in VAT and customs applied to triangular operations

Intended audience

All logistics, customs, purchasing, accounting and sales staff involved in cross-trade operations.

Prerequisites
