

Business Intelligence e-learning channel

Practical course - 1d - 05h17 - Ref. 8BI

Price : 190 CHF E.T.

Vous souhaitez transformer vos données en décisions stratégiques percutantes ? Découvrez comment la Business Intelligence peut révolutionner votre approche analytique avec notre chaîne spécialisée. Véritable clé de voûte de la gestion moderne, la Business Intelligence vous permet d'exploiter pleinement le potentiel de vos données. En passant par la collecte et l'analyse de vos données, vous apprendrez à concevoir des tableaux de bord intuitifs pour tous.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ SAP BusinessObjects: create queries, analyze and present data.
- ✓ SAP BusinessObjects: optimize design with best practices and learn about add-ons.
- ✓ Qlik Sense: build an application and use the data loading script and fine object construction.
- ✓ Tableau: create a dashboard by connecting and cleansing data.
- ✓ Tableau: format, analyze and share a dashboard

Intended audience

Anyone wishing to present data in the form of reliable, relevant reports.

Prerequisites

No special knowledge required.

PARTICIPANTS

Anyone wishing to present data in the form of reliable, relevant reports.

PREREQUISITES

No special knowledge required.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.

Participants also complete a placement test before and after the course to measure the skills they've developed.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

Practical details

Digital activities

IT structure: recorded courses, expert videos and best practice sharing.

Mentoring

L'option tutorat propose un accompagnement personnalisé par un formateur référent ORSYS, expert du domaine. Adapté aux besoins, aux capacités et au rythme de chaque apprenant, ce tutorat combine un suivi asynchrone (corrections personnalisées d'exercices, échanges illimités par message...) et des échanges synchrones individuels. Bénéfice : une meilleure compréhension, le développement des compétences et un engagement durable dans la formation.

Pedagogy and practice

A wealth of content produced by trainers following a rigorous pedagogical approach. During each course, operational cases are commented on by experts to help learners put into practice what they have just learned. To help learners anchor their memory, each content item is broken down into short sequences of 3 to 10 minutes. This enables each learner to learn dynamically and independently.

Course schedule

1 SAP BusinessObjects Web Intelligence BI 4, query and present

enterprise data

- Introducing BusinessObjects.
- Query: queries.
- Presentation: report formatting.
