

Immersive chain - Environmental issues

by Reality Academy

Practical course - 0,5d - 00h45 - Ref. 8EN

Price : 95 CHF E.T.

Renforcez votre culture d'entreprise pour créer une communauté engagée et responsable envers l'environnement. Démontrez votre engagement dans les problématiques de développement durable à vos salariés, clients, partenaires et investisseurs. Stimulez l'intérêt et l'engagement RSE de vos équipes grâce à une formation ludique et immersive.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Analyze best practices in energy efficiency and identify eco-gestures to implement in your professional and personal environment.
- ✓ Experiment with concrete actions to reduce energy consumption and measure their impact on the environment.
- ✓ Evaluate the role and resilience of ecosystems in the face of climate change to understand the issues involved in preserving them.
- ✓ Identify and propose actions to conserve and restore biodiversity and contribute to the natural balance.

PARTICIPANTS

PREREQUISITES

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

TERMS AND DEADLINES

Practical details

Digital activities

By Reality Academy training courses are immersive and interactive. Learning by doing is a powerful skills-building tool: immersed in a virtual classroom, the learner selects his or her training course and plunges into the scenario. They experience a situation, make a decision in the 1st person and live the direct consequences.

Mentoring

The tutoring option offers personalized support from an ORSYS trainer who is an expert in the field. Adapted to the needs, abilities and pace of each learner, this tutoring combines asynchronous follow-up (personalized corrections of exercises, unlimited exchanges by message...) and individual synchronous exchanges. The result: better understanding, skills development and lasting commitment to training.

Pedagogy and practice

Get advice and feedback from leading experts. Discover their tricks of the trade and the reasons behind their successes through real-life testimonials. Learners take part in an active discovery exercise to complement and/or reinforce the expert's notional input, and benefit from feedback tailored to their response. During each course, discover operational cases created by experts to help learners put into practice what they have just learned. Find a complete and effective summary sheet! Each learner can keep a written record of what they've learned and the advice they've received.

Registration must be completed 24 hours before the start of the training.

ACCESSIBILITY FOR PEOPLE WITH DISABILITIES

Do you need special accessibility accommodations? Contact Mrs. Fosse, Disability Manager, at psh-accueil@orsys.fr to review your request and its feasibility.

Course schedule

1 Energy Sobriety & Digital

Digital activities

Enjeu : Plus d'un million d'espèces sont menacées d'extinction en raison des activités humaines et du réchauffement climatique. La sobriété énergétique est un levier essentiel pour réduire notre impact environnemental. Ce que je vis : En immersion dans un environnement interactif, vous êtes confronté à différents choix et adoptez des pratiques permettant de réduire votre empreinte énergétique.

2 The challenges of biodiversity

Digital activities

Enjeu : La destruction des habitats naturels met en péril des milliers d'espèces animales et végétales. Préserver la biodiversité est essentiel pour maintenir l'équilibre des écosystèmes et lutter contre le changement climatique. Ce que je vis : Vous partez en immersion dans des écosystèmes fragiles, découvrez les conséquences de leur destruction et expérimentez des actions favorisant leur régénération.
