

Course : SAP BusinessObjects BI 2025, Web Intelligence, Level 3

Dashboard creation (Expert level)

Practical course - 3d - 21h00 - Ref. BWC

Price : 2270 CHF E.T.

NEW

This training course will enable you to master the advanced features of SAP Business Intelligence® Web Intelligence BI 2025 to create synthetic, interactive dashboards.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Be able to propose Dashboard documents
- ✓ Identify what's new in Web Intelligence BI 2025
- ✓ Learn how to use all the dashboard functions offered by Web Intelligence BI 2025
- ✓ Enhance Dashboards for interactive and intuitive data analysis

Intended audience

SAP Business Intelligence® Web Intelligence for end-users, report editors and those involved in business management

Prerequisites

Completion of the "SAP BusinessObjects Web Intelligence, Level 2 Advanced" course or at least the "SAP BusinessObjects Web Intelligence, Level 1" course.

Practical details

Teaching methods

Alternating theoretical presentations and practical exercises to create a synthetic dashboard.

Course schedule

PARTICIPANTS

SAP Business Intelligence® Web Intelligence for end-users, report editors and those involved in business management

PREREQUISITES

Completion of the "SAP BusinessObjects Web Intelligence, Level 2 Advanced" course or at least the "SAP BusinessObjects Web Intelligence, Level 1" course.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.

Participants also complete a placement test before and after the course to measure the skills they've developed.

1 Reminders

- Cell and block alignment.
- BI2025: rich text and image cells.
- BI2025: 3 new side control panels: main panel, creation panel and quick access panel...
- Formatting of page headers and footers for each report.
- Integration of images from the server (logo, etc.).
- Icon integration.
- Multi-queries (Universe and Excel). Combined queries.
- Merging dimensions.
- BI 2025: new cube combination operators.
- Create variables with advanced formulas and use the calculation context.
- Conditional block masking with formulas.
- Diagrams and advanced formatting.
- BI 2025: New SAP UI5 diagrams.

2 Building a dashboard

- Management of various dashboard reports.
- Create a navigation banner on each report.
- Use intra-document links to navigate between reports.
- Create a summary (or table of contents) to navigate through the document's reports.
- BI 2025: hide report bar in read mode
- BI 2025: export a dashboard report in WIDX format.

3 Indicators & KPIs

- Tables: create vertical, horizontal and crosstab tables.
- BI2025: drop-down tables and microdiagram integration.
- Diagrams: curves, sectors, rings, histograms or column diagrams with 2 Y axes, stacked histograms, multiple diagrams.
- KPIs: mosaic diagram, mosaic with deviation and speed indicator.
- Cartography: based on geographic data.
- BI 2025: SAP UI 5 diagrams compatible with WIDX export format.
- Diagram animation and presentation mode.

4 Features

- Connecting people.
- Explorer mode (navigation paths or multidimensional analysis).
- Report and document input controls, control groups.
- BI2025: integrated report filters.
- BI2025: action button to show or hide report elements.
- BI2025: simple and cascading tooltip diagram.
- BI2025: define a custom report layout.
- BI2025: integration of KPIs in the home page of the quick launch zone.

Role-playing

Creation of an interactive Dashboard, progressively enriched with 8 summary reports, followed by a navigation summary.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training.

ACCESSIBILITY FOR PEOPLE WITH DISABILITIES

Do you need special accessibility accommodations? Contact Mrs. Fosse, Disability Manager, at psh-accueil@orsys.fr to review your request and its feasibility.
