![orsys TRAINING 50 YEARS]

Course : Dorik, create your web projects in no-code

Create pages, responsive sites, CMS with this "page builder" tool
Practical course - 2d - 14h00 - Ref. DIK
Price : 1500 CHF E.T.

In a context of accelerating digital transformation and lack of resources, no-code platforms make web project development faster, more accessible and scalable, without forgetting quality. Dorik is a versatile tool that can be used to create a single page as well as very complete sites.

Teaching objectives

At the end of the training, the participant will be able to:

- Getting started with Dorik
- Create a landing page
- Integrating different blocks
- Use integrations and publish your project
- Create a website

Intended audience
Anyone wishing to create a website without HTML/CSS/JavaScript knowledge.

Prerequisites
Basic computer skills.

Course schedule

1 Introduction to no-code and web design

- The challenges of no-code.
- Focus on app builders.
- For whom and what?

Storyboarding workshops
Acceleration of digital transformation, the idea of using non-computer resources, tools increasingly available to users.

2 Getting started with Dorik
