

Course : ISO/IEC 42001 Artificial Intelligence Management System Foundation, PECB certification

Practical course - 2d - 14h00 - Ref. IMF
Price : 1950 CHF E.T.

★★★★★ 4,2 / 5

Nouvelle édition

This course will give you the skills you need to establish, implement, maintain and continually improve an IA management system. You will also learn about the key aspects of ISO 42001: context, terms and specific requirements.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Explain the fundamental concepts and principles of artificial intelligence management
- ✓ Describe the main requirements of ISO/IEC 42001 for an artificial intelligence management system
- ✓ Identify the approaches, methods and techniques used to implement, manage and improve AIMS

Intended audience

Professionals wishing to understand the requirements of ISO/IEC 42001, managers and consultants wishing to learn more about managing artificial intelligence (AI).

Prerequisites

None.

PARTICIPANTS

Professionals wishing to understand the requirements of ISO/IEC 42001, managers and consultants wishing to learn more about managing artificial intelligence (AI).

PREREQUISITES

None.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

Certification

L'examen consiste à répondre à 40 questions, en 1h00 et à livre fermé. À l'issue du cours, une attestation de suivi de la formation de 14 unités de FPC (Formation professionnelle continue) sera délivrée aux participants ayant suivi la formation. Les candidats ayant suivi la formation mais échoué à l'examen peuvent le repasser gratuitement une seule fois dans un délai de 12 mois à compter de la date initiale de l'examen. Le support de cours contient les extraits de la ou des norme(s) nécessaires au passage de l'examen de certification. L'examen se passe en distanciel en différé.

Remote certifications

[See the certifier's official documentation](#) for the list of prerequisites for completing the online certification exam.

Course schedule

1 Introduction to the Artificial Intelligence Management System (AMS) and ISO/IEC 42001

- Introduction to artificial intelligence.
- Introduction to ISO/IEC 42001:2023.

2 Artificial intelligence management system

- The life cycle of a management system.
- The key processes of an AI management system.
- Tools and techniques for implementing an APG.

3 Areas of expertise covered by the exam :

- Area 1: Fundamental principles and concepts of an artificial intelligence management system.
- Area 2: Artificial intelligence management system.

Dates and locations

REMOTE CLASS

2026 : 26 Mar., 22 June, 5 Oct., 10 Dec.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training.
