

Course : Oracle's SQL and PL/SQL contributions from 12c to 26ai

Discover Oracle's database evolutions

Practical course - 2d - 14h00 - Ref. NSA

Price : 1600 CHF E.T.

NEW

Alors que la version 19c restera supportée jusqu'en 2027, avant d'entrer en support étendu jusqu'en 2032, Oracle 26ai deviendra la prochaine version "long terme", à compter de sa sortie fin 2025. Les développeurs, bien qu'étant en alerte des nouveautés, manquent de temps pour les mettre en pratique. Cette formation condense les techniques de SQL et de PL/SQL qui n'ont cessé d'évoluer depuis la version 12c. Elle offre un tour d'horizon, avec la description des fonctions et packages récents, ainsi que la manipulation de données JSON et les aspects d'IA inclus dans la base.
