PARTICIPANTS

PMP or CAPM certification candidates.

PREREQUISITES

The participants must have attended the PMI Project Management Course.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more.

Participants also complete a placement test before and after the course to measure the skills they've developed.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

4 The exam process

- Types of questions; the interface; Exam time management.
- How to deal with questions, pitfalls...

5 Review, simulation, mock exam

- A quiz is distributed to participants.
- Reminders are given about PMI domains, tools (ROI, Earned-value...).
- Each participant uses a software simulator in order to review basic concepts, monitor errors, control time spending, fol
- A mock exam is organized at the end of the session.
