

Course : ISO/IEC 27701 Lead Auditor, PECB certification

Privacy Information Management System, privacy protection

Practical course - 5d - 35h00 - Ref. VPA

Price : 4160 CHF E.T.

NEW

This training course will give you the knowledge you need to plan and carry out audits in line with ISO 19011 and ISO/IEC 17021-1 certification processes. You will understand the challenges of a privacy protection system (PIMS) and identify the relationships between the various ISO standards to effectively carry out your audit assignments.

Teaching objectives

At the end of the training, the participant will be able to:

- ✓ Understanding a privacy management system (PIMS) and its processes based on ISO/IEC 27701
- ✓ Identify the relationship between ISO/IEC 27701, ISO/IEC 27001, ISO/IEC 27002 and other standards and regulatory frameworks
- ✓ Understand the auditor's role in planning, directing and following up an ISO 19011 audit.
- ✓ Learn how to interpret the requirements of ISO/IEC 27701 in the context of a PIMS audit.

Prerequisites

Have a fundamental understanding of information security and privacy, and a thorough knowledge of auditing principles.

Certification

Examen composé de 80 questions, à traiter en 3h. L'examen se passe en distanciel en différé. Une Attestation d'achèvement de formation de 31 unités de FPC (Formation professionnelle continue) sera délivrée. En cas d'échec à l'examen, vous pouvez le reprendre gratuitement dans les 12 prochains mois.

Course schedule

PARTICIPANTS

PREREQUISITES

Have a fundamental understanding of information security and privacy, and a thorough knowledge of auditing principles.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

1 Introduction to privacy management systems and ISO/IEC 27701

- Training objectives and structure.
- Standards and regulatory frameworks.
- Certification process.
- Fundamental principles and concepts of information security and privacy protection.
- Privacy management system (PIMS).
